

## GEM Regular Reports

Green Energy Markets (GEM) produces two regular subscription based reports.

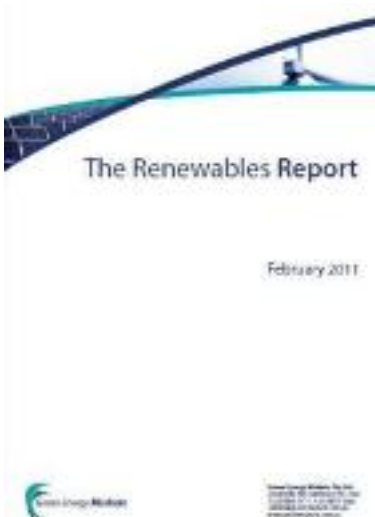

These reports provide an authoritative and comprehensive assessment of the renewable energy certificate market on a month-by-month basis, keeping you abreast of market developments that may have pricing and commercial implications.

### The Solar Report

- Renewable policy updates
- Analysis of small-scale system installations and capacities
- Certificate supply and demand for small-scale systems
- Certificate pricing
- Tracking system pricing, exchange rates and electricity prices
- Analysis of activity through the clearing house
